

REMARKS/ARGUMENTS

1. The disclosure was objected to because the word "swivel" was misspelled in Paragraph [0005]. This Paragraph has been amended and the error corrected, so the objection should now be overcome.
2. Claim 1 was rejected under the provisions of 35 U.S.C. 102 as being fully me by Hinte. Insofar as this rejection might be applied to any of the claims presently pending in the application, it is respectfully traversed.

Claim 1 has been cancelled, so this rejection should now be moot.

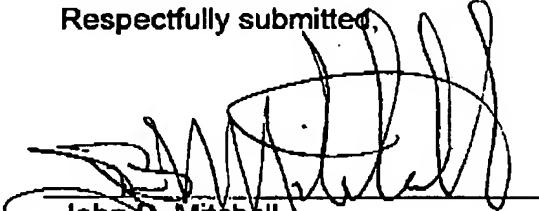

2. Claim 2 was rejected under the provisions of 35 U.S.C. 103 as being unpatentable over Hinte in view of Kletzli et al. Insofar as this rejection might be applied to any of the claims presently pending in the application, it is respectfully traversed.

Claim 2 has been cancelled, so this rejection should now be moot.

3. Claims 3-7 were identified in the Office Action as containing allowable subject matter. Claims 1 and 2 have been cancelled and the limitations thereof added to original claim 3, making claim 3 independent. Since claim 3 has been indicated as containing allowable material, amended claim 3 and all claims depending therefrom should also be allowable.
4. In summary, claims 1 and 2 have been cancelled, claim 3 has been amended to contain the limitations of original claims 1-3, and claims 3-7 remain in the application. Applicant respectfully requests that the objection and rejections be withdrawn, and that the case be forwarded for issuance.

Pursuant to currently recommended Patent Office practice, the Examiner is expressly authorized to call Applicant's attorney, collect, at Lancaster, Pennsylvania, if in his judgment disposition of this application could be expedited or if he considers the application ready for final disposition by other than allowance.

Respectfully submitted,
